

Lyon, 17 July 2023

HYVOLUTION PARIS 2024 IS EXPANDING COME AND MEET US IN HALLS 4 AND 6 OF PARIS EXPO PORTE DE VERSAILLES!

A few weeks after opening up for bookings and due to high demand from exhibitors, a second hall is now available for the next edition of Hyvolution Paris, set to take place on 30, 31 January and 1 February 2024.

Following the success of the first international edition in Chile, Hyvolution Paris is confirming its role as a benchmark event for experts in the hydrogen sector.

Hyvolution Paris 2024, now taking place over three days, will be the unmissable international forum for discussing the political and economic issues inherent to hydrogen solutions, which will be vital in the transition to a low-carbon economy.

Now a true reflection of the public authorities' commitment to such technologies, as well as a business accelerator for the entire industry, Hyvolution Paris is ushering in a new era.

ABOUT THE ORGANISER

GL EVENTS EXHIBITIONS OPERATIONS

With 200 public and professional events organised worldwide, GL events Exhibitions Operations has acquired unparalleled know-how in the business of organising trade shows, one which requires ever more exacting skills in marketing, communication and organisation while staying close to the people in its markets. Hyvolution Paris is organised by the GreenTech+ division, which also manages eight other major gatherings: BePOSITIVE, Expobiogaz, Eurobois, Horizonia, Open Energies, Paysalia, Piscine Global Europe, and Rocalia.

GreenTech+ is the new division of the GL events group, a unique showcase born of synergies between trade fairs grouped around the common themes of green innovation and sustainable development.

With GreenTech+, the GL Events group wants to play a full part in meeting the major environmental challenges, with a unique format that brings together and offers new visibility to the sectors of the future. GreenTech+ is the accelerator through which this new GL events group body is committed to supporting the industry's players in their development, seeking tomorrow's solutions, and encouraging people to behave in a more environmentally responsible manner.

ABOUT FRANCE HYDROGÈNE

With close to 350 members, France Hydrogène brings together the key stakeholders in the French hydrogen industry structured along the whole value chain: industrial corporations developing large-scale projects, innovative smaller businesses and start-ups supported by cutting-edge laboratories and research centres, non-profit organisations, the education world, competitiveness clusters, and local and regional authorities with a strong involvement in the deployment of hydrogen solutions.

As a privileged partner of the public authorities, France Hydrogène is actively committed to:

- Representing all the players in the hydrogen industry
- Raising awareness of the issues and promoting the industry's solutions
- Being the undisputed leading expert
- Rolling out hydrogen technologies
- Promoting France's hydrogen industry.

France Hydrogène supports the industry at a grass-roots level through its 12 regional delegations

Its ambition is to accelerate the development of hydrogen solutions to drive a successful green transition, reindustrialise the country, and create value locally to improve quality of life for everyone.
